Different Styles of Chair Desk/Combo Units

Virco chair desks and combos come in a great selection of shapes and sizes. If you want deluxe, adjustable units, our ErgoCombo® models have a pneumatically adjustable shell and a bowfront work surface that moves from front to back for optimum positioning. For classrooms where floor space is at a premium, Virco offers several 4-leg units with a compact footprint. Selected units have generously proportioned shells to accommodate today's physically larger students; others feature extra-large work surfaces that hold a laptop and a textbook. Dozens of additional Virco 4-leg and sled-based combos provide even more furniture solutions.

4-Leg Study-Top

Grades: 5 through Adult Learning

Many school administrators prefer a 4-leg frame configuration for their study-top combo units. Unlike 4-leg chair desks with smaller footprints and work surfaces, 4-leg study-top combos are fitted with larger work surfaces – two of which provide extended support for the right arm – and hold more classroom materials. They can also be equipped with bookracks and backpack hangers.

Available with the Following Series

Metaphor®	page 15
ZUMA®	page 24
Sage™	page 30

2000	page 44
Telos™	page 51
ZUMAfrd™	page 53
3000	pages 56, 57

Sled-Base Study-Top

Grades: 5 through Adult Learning

Some administrators choose sled-based study-top combos for classrooms with carpeted floors. In other schools and districts, a traditional preference for a sled-based design continues to guide purchasing decisions. Like their 4-leg study-top counterparts, Virco sled-based study tops give you large work surfaces; bookracks and backpack hangers are also available.

Available with the Following Series

ZUMA	page 25
Sage	page 31
I.Q.®	page 39
9000	page 43
2000	page 44
3000	page 56

ErgoCombo

Grades: 5 through Adult Learning

Breakthrough ErgoCombo models give students comfortable, adjustable seating with a spacious individual work surface. By combining an ergonomically contoured ZUMA® or Sage™ shell – that swivels for easy access – with a pneumatic height-adjustment mechanism, the ErgoCombo offers great support and convenient adjustability. The ErgoCombo's generous work surface easily adjusts from front to back; it also easily accommodates a textbook and laptop.

Available with the Following Series

ZUMA	page 25
Sage	page 31

Chair Desk

Grades: 5 through Adult Learning

When classroom dimensions present challenges to schools or districts, Virco chair desks can help. Their compact size enables optimum utilization of space in learning environments.

NEW PRODUCT

* Sage and ZUMA Series choices also include articulating tablet arm models.

Why Choose Backpack Hangers?

Millions of backpacks accompany students to school whenever classes are in session. Without an effective classroom storage solution, backpacks are often found lying in aisles between desks, leaning against walls, or awkwardly slung over the backs of chairs.

To resolve these issues, Virco has developed a convenient, effective, steel-wire backpack hanger for use with our chair desks, combo units and student desks. This factory-installed option lets students easily hang their backpacks beneath a Virco work surface for quick access to materials and less clutter in classrooms.

Given the prevalence of backpacks in today's schools, administrators and educators are encouraged to evaluate the respective storage benefits of backpack hangers and traditional underseat bookracks for use with chair desks and combo units.

Features and Options for Chair Desks and Combination Desks

Nylon Sled-Base Glides

Four nylon-base glides are standard on sled-based combination desks.

Steel-Base Glides

Four steel-base swivel glides are available options on 4-leg chair (except model ZU410) and combinations desks.

Nylon-Base Glides

Four nylon-base swivel glides are standard on 4-leg chairs.

Wire Backpack Hanger

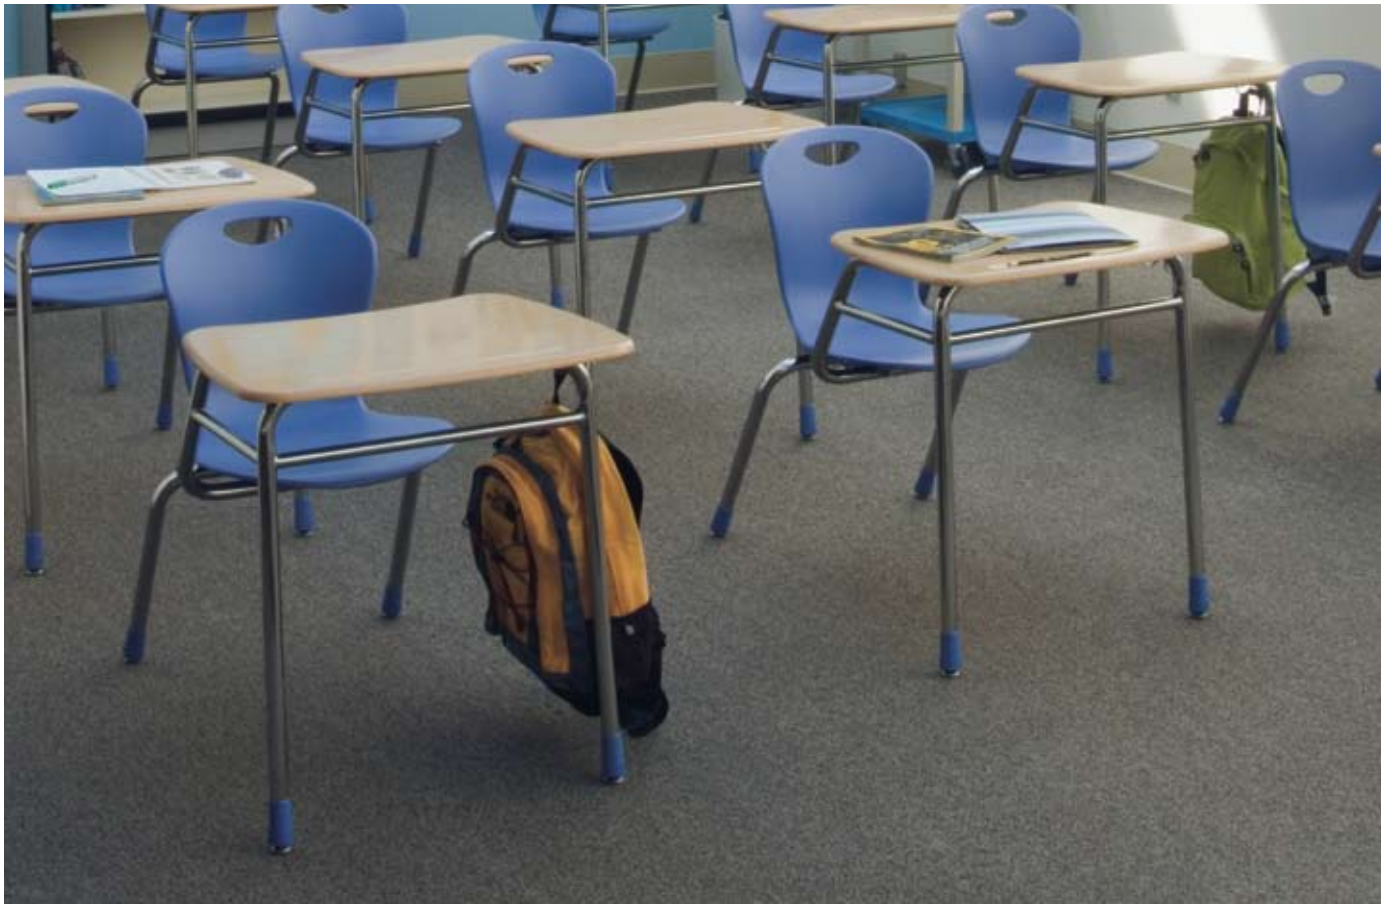
An optional Chrome backpack hanger is available on all desks and combinations desks.

Backpack Floor Tray

An optional backpack floor tray is available for both the ZUMA® and SAGE™ ErgoCombo® models.

Choose With or Without a Wire Bookrack

Virco's chair desks and combination desks come with or without a wire bookrack option. Please reference the comments on page 8 concerning backpack hangers.



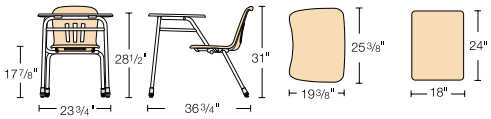
Metaphor® Combo Units

The combination chair and desk (combo) is still one of the most economical classroom solutions available. Virco offers Metaphor® 4-leg combos with all the options you need to fit your own classroom style and budget. The Metaphor line now includes a tablet arm unit that can be ordered with or without a welded-on bookrack.

N9CONBRM

4-leg combo unit with large 19⅜" x 25⅜" Fortified Recycled Wood™ bow front top.

Two Top Sizes



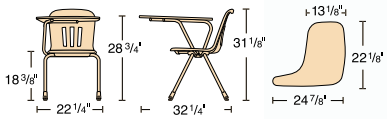
Desk Top Options

Metaphor combo units are available with your choice of two top sizes. Both sizes can be ordered with a Fortified Recycled Wood construction (left), or a particleboard-core, high-pressure laminate construction (right).

NEW PRODUCT

N918TAF

4-leg tablet arm unit with a fixed 24⅞" x 22⅛" particleboard-core, high-pressure laminate work surface.



Metaphor Options

Bookrack

Combo units can be ordered with a welded-on wire bookrack.

Wire Backpack Hanger

A pre-installed Chrome backpack hanger is an available option on any combo; not available on tablet arm models.

ZUMA® Combo Units

There's never been a chair desk like the breakthrough ZUMA® ErgoCombo®. An adjustable bowfront work surface with a front-to-back movement range of 12" to 17" allows people of all body types to comfortably read, write or use laptops in the ErgoCombo. And for easily getting into and out of the unit, the ErgoCombo comes with an adjustable-height swivel seat.

ZUMA's SledCombo® features a classic sled-based frame with the contoured comfort of the unique ZUMA chair shell. As with the ErgoCombo – or any ZUMA seating product – full appreciation only comes after a test ride.

The ZUMA line includes a 4-leg chair desk uniting the flexible, ergonomically supportive ZUMA shell with a curved work surface. Two compact tablet arm models are available: one with a fixed work surface, and one with an articulating work surface.

ZCOMBONBRM comes with Graphite glides.

ZCOMBONBRM (shown) and ZCOMBOBRM

This space-saving 4-leg chair desk brings comfort and style to the classroom.

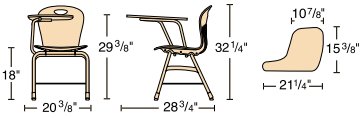
ZCOMBOLHNBRM and ZCOMBOLHBRM

The ZUMA line includes two combo models with entry from the right side. ZCOMBOLHBRM is offered with a steel-rod bookrack, while model ZCOMBOLHNBRM comes without a bookrack.

NEW PRODUCT

ZU418TABR

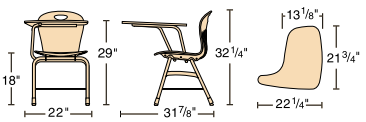
If your applications call for a tablet arm unit with an articulating work surface, this ZUMA model provides a comfortable, functional solution. Available only with a plywood-core, high-pressure laminate work surface.



Glides and seats are color-matched.

ZU418TAFBR

For environments where floor space is at a premium, this ZUMA tablet arm unit has a compact footprint. Available only with a particleboard-core high-pressure laminate work surface.



See the accompanying price list for Quick Ship models and color selections.

ALL products on this page are GREENGUARD® Certified

ErgoCombo units feature an oversize 22¾" x 31⅝" desk top providing over 40% more work surface than a standard 18" x 24" top.

ErgoCombo Units ZERGOTRAYM (shown) and ZERGOM

By combining an adjustable-height swivel seat with a work surface that moves from front to back, the ZUMA® ErgoCombo® delivers a new level of ergonomic comfort. The unit shown here includes an optional backpack floor tray.

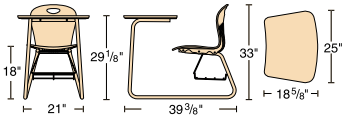
SledCombo Models ZSLEDBRM (shown) and ZSLEDNBRM

For a traditional sled-based combo unit with an ergonomically supportive shell, the SledCombo is in a class of its own. ZSLEDNBRM comes without a bookrack.

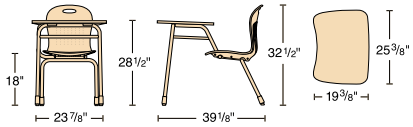


Sage™ Series Combo and Tablet Arm Units

Virco's Sage™ Series gives you a great range of combo and tablet arm unit choices for your campus. Four Sage combo units – two sled-based models and two with a 4-leg configuration – let you select the features that work best for your learning environments. You can also order space-saving Sage tablet arm models with a fixed work surface or an articulating work surface.

SGCOMBONBRM (shown) and SGCOMBOBRM

An ergonomically curved work surface complements the comfortably sculpted Sage shell of this 4-leg combo unit. Model SGCOMBOBRM comes with an underseat steel-rod bookrack.

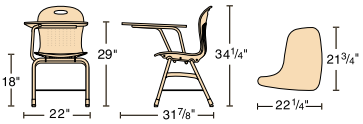


SGCOMBOLHNBRM and SGCOMBOLHBRM

Two Sage combo units provide right-side entry. Model SGCOMBOLHBRM is offered with a steel-rod bookrack, while model SGCOMBOLHNBRM comes without a bookrack.

SG418TAFBR

The Sage tablet arm model with an integral bookrack has a compact footprint that's important in rooms where floor space is an issue. Available only with a particleboard-core high-pressure laminate work surface.



NEW PRODUCT

SG418TABR

For classrooms where an articulating tablet arm chair is preferred, this super-comfortable Sage model makes a great choice. Available only with a plywood-core, high-pressure laminate work surface.

Virtuoso® Seating

Conceived by world-renowned sculptor and furniture designer Charles Perry, Virtuoso® seating brings exceptional comfort and tasteful styling to any educational setting. By gently flexing to accommodate your position in the chair, Virtuoso's patented articulating back provides long-lasting support.

You can order Virtuoso models with a contoured polypropylene seat and back, or a padded, upholstered seat and back. And in addition to chairs with or without self-skinned urethane arms, two Virtuoso models are now available with a fixed tablet arm.

Stack and Store

Use Virco's HCT2945 chair truck to stack and store model 2945, 2945A, 2945P and 2945AP Virtuoso chairs up to 12 high.

See page 262 & 265 for information on chair trucks. Please refer to page 295 for "Guidelines for Stacking & Moving Furniture."

Ganging Device

An optional ganging device speeds and secures alignment of chairs in rows. The ganging device is available only on models 2945 and 2945P.

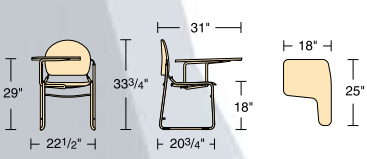
NEW PRODUCT

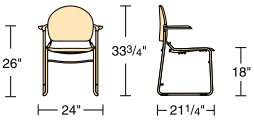
2945TA

With a contoured polypropylene seat and back, this Virtuoso tablet arm model complements a wide range of learning environments.



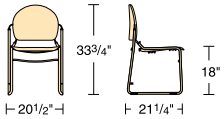
2945A

Virtuoso chairs with self-skinned urethane arms provide seating solutions in offices, libraries and other on-campus settings.



2945

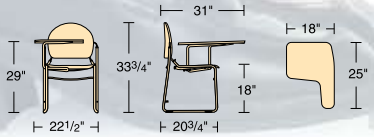
The patented, articulating Virtuoso back delivers long-lasting comfort. An optional ganging device is available for this model.



NEW PRODUCT

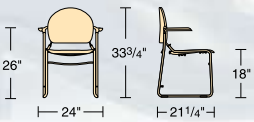
2945TAP

For environments that specify a tablet arm unit with a padded, upholstered seat and back, this Virtuoso model is a perfect choice.



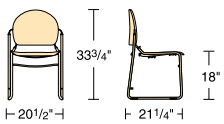
2945AP

Padded, upholstered Virtuoso chairs with self-skinned urethane arms are ideal for reception seating and guest seating.



2945P

This Virtuoso model combines convenient stackability and upholstered elegance; an optional ganging device is available.



I.Q.® Combos and Tablet Arm Desks

When your curriculum calls for student seating with an individual work surface, the I.Q.® Series offers stylishly functional solutions. For starters, our model 2645TAF combines a 4-leg frame with our ergonomically supportive I.Q. shell and a plywood-core, high-pressure laminate tablet arm work surface.

As a complement to this I.Q. tablet arm model, Virco offers a popular sled-based combo unit. With its 17½" seat height, our 267017BR chair desk facilitates an array of educational seating applications. This model is also standard with a plywood-core, high-pressure laminate work surface.

Glides are standard on all sled-based models.

267017BR

For functional, stylish furniture that combines an individual work surface and a flexible seat with contoured lumbar support, the I.Q. sled-based chair desk is unsurpassed. Model 267017BR is shown with Chrome frame, Purple Iris seat and Fusion Maple laminate. Comes standard with plastic glides.

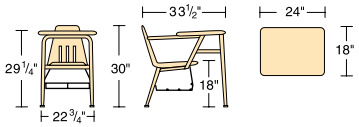
Classic Series™ Chair Desks

Every 9000 Series Virco chair desk gets its strength from a stout 1⅛" tubular steel frame. Versatility comes in your choice of two space-saving tablet arm models, or study top combos with larger work surfaces. Model 9700BR, 9400BR and 9400LABR units have a tied-in arm welded to our tubular steel back support for added strength, while model 9640BR study top combos feature a sled-based design.

Each model is equipped with a durable high-pressure laminate work surface. An underseat steel-rod bookrack is standard on all models.

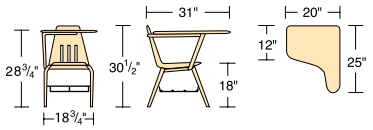
9400BR (shown) and 9400NBR

Virco's model 9400BR gives you a hard-working study top combo with a large work surface. Model 9400NBR comes without a bookrack.



9700BR

When basic economics are a classroom issue, these tablet-arm chair desks come through with cost-saving solutions.



See the accompanying price list for Quick Ship models and color selections.

2000 Series Chairs

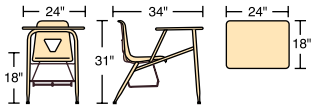
Virco's stackable 2000 Series chairs combine the strength of heavy-gauge tubular steel legs with a smooth polypropylene shell and a comfortably contoured waterfall seat front. They're available in 12", 14", 16" and 18" seat heights for use in all grade levels; an additional 18" model comes with a padded, upholstered seat and back. And if you prefer sled-based chairs, we've got models with four seat heights.

Like Virco's other classroom furniture lines, the 2000 Series includes a selection of chair desks. Our popular model 2700BR features a space-efficient footprint and tablet arm configuration, while the model 2400BR gives you a generous 18" x 24" work surface. If your applications require sled-based seating, our model 2440BR delivers excellent service.

We also offer a 2000 Series mobile task chair with a rugged 5-point base and an easy-to-operate pneumatic height adjustment mechanism.

2400BR (shown) and 2400NBR

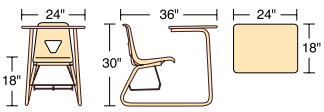
For a chair desk that features a spacious 18" x 24" high-pressure laminate work surface with a welded-on steel-rod bookrack, look no further than Virco's model 2400BR. Model 2400NBR comes without a bookrack.



Plastic glides come standard on model 2440BR.

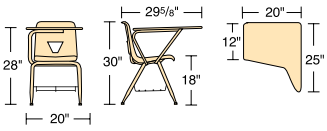
2440BR

Model 2440BR sled-based combos give you the convenience of double-entry seating along with a steel-rod underseat bookrack.



2700BR

With its compact tablet arm configuration, Virco's model 2700BR helps you devise effective space-saving classroom layouts.



See the accompanying price list for Quick Ship models and color selections.

FORTIFIED RECYCLED WOOD
ZUMA*frd*™

By combining proprietary chemistry with innovative mold design and process control, ZUMAfrd™ models – which feature seats, backs and work surfaces made from Virco's exclusive Fortified Recycled Wood™ hard plastic – transcend these limitations to yield a new generation of compression molded furniture with the following attributes:

- ZUMA*frd* contains up to 70% recycled material, depending on the model and specifications.
- ZUMA*frd* is 98% fabricated, recycled, and assembled in our own U.S. factories, both of which meet the highest standards of environmental compliance and social equity.
- ZUMA*frd* is also 98% recyclable at the end of its long service life – only the glides cannot be easily recycled.
- Once processed, components of Fortified Recycled Wood are virtually inert, allowing them to meet the most stringent standards for flame resistance and low emissions. They've also enabled all ZUMA*frd* models to earn the GREENGUARD Indoor Air Quality Certified Mark® as products that meet the stringent indoor air quality standard established by the GREENGUARD Environmental Institute for children and schools.
- Seats and backs are available in the exciting colors shown at right.
- Work surfaces are available in over 300 custom patterns for projects with sufficient lead times.

ZFRDCOMBONBR

With stout, sustainable Fortified Recycled Wood components, the ZUMA*frd* combo desk is ideal for high-intensity classrooms.
